

## **Environmental protection**

On behalf of the companies, we deal with all responsibilities steaming from environmental protection regulations.

We can offer you full service in the field of fulfilling all responsibilities resulting from current environmental legal acts – we take from you the problem of carrying-out time-consuming calculations and reports being the company's obligatory responsibility.

What is more, we complete documentations for investment realization being essential element of agreement concerning the venture's influence on environment.

We also propose environmental audit, after which we will present you best legal and economic solutions in environment protection.
